

Alkira Ski Club (the lodge)

Covid Safe Settings and Covid Safe Plan Update | 8th June 2022

Prepared by: Alkira Committee with reference to the MBRA COVID Safe Plan to members and stakeholders

Dear Alkira Members and Guests,

Please see below our COVID-19 plan overarched by a focus to minimise the risk of coronavirus (COVID-19) transmission occurring at the lodge:

Common Sense...

- No person is to travel to Mt Buller and/or the lodge if they have any symptoms of COVID-19 or influenza.
 - The club will provide a full refund to members and/or guests unable to use booked accommodation for the above reason up to the day of the booking
- Vaccination Status is not required to stay at the lodge
- There are no contact tracing requirements for people arriving at or being within the lodge
- There are no COVID capacity restrictions on the number of people who can come to the lodge
- Members & Guests are not required to check-in using the Service Victoria App to enter the lodge
- COVID RAT testing kits will not be provided by the lodge during the 2022 snow season:
 - We recommend members and guests bring their own COVID RAT testing kit to the lodge
 - COVID RAT testing kits can be purchased from the lodge for \$10 as the club will maintain a small inventory managed by the lodge manager

Members and Guests who feel unwell...

- Members and guests who develop COVID-19 or influenza symptoms should return home immediately, and should contact the Lodge Manager or RMB for assistance if they are unable to return home without using resort public transport
- Members and guests who develop COVID-19 or influenza symptoms and are not able to return home must make arrangements to self-isolate within the resort in accordance with Government guidelines.
